

ALTANZA

ECOLOGIC EVOO

We are proud to produce one of the highest quality Ecologic Extra Virgin olive oils in Rioja.

VARIETY

100% Arbequina.

ELABORATION

Our Ecologic Olive Grove is hand-picked during the night, at low temperatures, to preserve the natural aromas of the olives that are going to go through a cold mechanical extraction without use of solvents or refining methods. It is bottled without filtering, to maintain all its organoleptic properties. This EVOO is Ecologic Certified by the DO Rioja of organic olive oils, as well as the Spanish Minister of Agriculture. It is a natural product exclusively obtained from physical procedures.

TASTING NOTES

Golden green colour. Delicate fresh and fruity aroma, with green olives, fresh cut grass and garden tomatoes notes. It is thick and delicate on the palate, thanks to its low acidity. Persistent, with a subtle and pleasant spice at the end. It has an outstanding intensity and a mild flavor. It is perfect to enjoy it raw or as a component of modern and traditional gastronomy recipes.
