Rudi Rüttger's Riesling Réserve is made from grapes grown in our oldest vineyards that are 45 to 60 years old. For a reason: The very old vines don't carry many grapes, plus: they root deep. That alone is creating highly concentrated grapes. They'll also always be the latest Riesling-Grapes we would harvest, to get the longest ripening-time as possible. We would then vinificate them partly in Oak-Barrels and let them age there for another year before bottling.

It is a rich, full-bodied, ripe Riesling-Type, that's great to enjoy now but should age very well for many years.

Best Serving Temperature: 10-12 °C
