Our family of winemakers, excuse us, is old fashioned, and enjoys a wine each day.

And this is exactly it, this is what we like to produce:

An Every-Day-Type-Of-Wine.

A short 5-day maceration preserved the delicate fruit-flavours, the quick winemaking process in mostly stainless steel allows the pure characteristics of the Pinot Noir grape and the limestone terroir to shine. It's not overloaded/fat, not alot of tannins, not too high on alcohol, but very elegant, with alot of primary fruit, alot of mineral influence from its terroir, very smooth and elegant, alot Pinot Noir, and last but not least: still very affordable.

Recommended serving-temperature:
slightly chilled at 16 °Celsius.
